## PROJECT

### **Weather Search App**

<https://practice-mobile-app-colour.netlify.app/>

- Allows users to check real-time weather conditions worldwide. Integrated weather API to fetch and display live data, including temperature, humidity, and forecast.
- Designed clean layouts and interactive elements to enhance user experience on both desktop and mobile devices.

### **Beauty Spa Website**

<https://nature-spa.netlify.app/>

- Built a luxury spa website using HTML, CSS, JavaScript and React.
- Implemented an online booking system with dynamic form handling that submits reservations to Google Sheets, enabling easy appointment tracking.

### **Peek-a-Zoo game**

<https://peek-a-zoo.netlify.app/>

- Built an interactive click-counter game where users click on animals to increase score using HTML, CSS and JavaScript.
